

TTV100

VERTICAL SILO TANK

Weights/Measurements

Volume	100,000 Litre 100m ³ 22,000 gallons (UK)
Height	14,500mm – 16,500mm
Diameter	2,800mm - 3,000mm
Weight	10 - 16 Tonnes (approx) empty
Ground Pressure	164 kPa Over flat base when full of liquid SG 1.12

Mobilisation

Pre-slung lifting tackle for crane lifting

Technical

Pipe Connections	4 inch (100mm) Flanged fill pipe + valve + coupling 4 inch (100mm) Low level flanged + valve + coupling Valve + Coupling connection tailored to requirement.
Level Indication	Calibrated float gauge &/or radar (Telematic*)
Vent	Vented
Overflow	Top overflow pipe returning to low level
Manway Access	Low level 600 Dia. Manway & bolted lid
Lifting Equipment	Pre-slung lifting tackle for crane lifting
Base fixings	4 No ground anchor points with 28mm Dia. Fixing holes

Please refer to specification sheets for individual item details.
