

TTV88

VERTICAL SILO TANK

Weights/Measurements

Volume	88,000 Litre 80m3 19,300 gallons (UK)
Height:	12,500mm
Diameter:	3,000mm
Weight	9,000kg (approx) Empty
Ground Pressure	164 kPa Over flat base when full of liquid SG 1.12

Mobilisation

Pre-slung lifting tackle for crane lifting

Technical

Pipe Connections	4 inch (100mm) Flanged fill pipe + valve + coupling 4 inch (100mm) Low level flanged + valve + coupling Valve + Coupling connection tailored to requirement.
Level Indication	Calibrated float gauge &/or radar (Telematic*)
Vent	Vented
Overflow	Top overflow pipe returning to low level
Manway Access	Low Level 600mm Dia. Manway & bolted lid
Lifting Equipment	Pre-slung lifting tackle for crane lifting
Base fixings	4 No ground anchor brackets with 28mm Dia. Fixing holes

Please refer to specification sheets for individual item details.
